

Elapse.

Not-Quite-Mid-Project Presentation

Motivation + context

- > visual design

 - > data visualization

- > web development

 - > interface design

- > relevant to the Olin community

 - > the overbooked Oliner

Overview

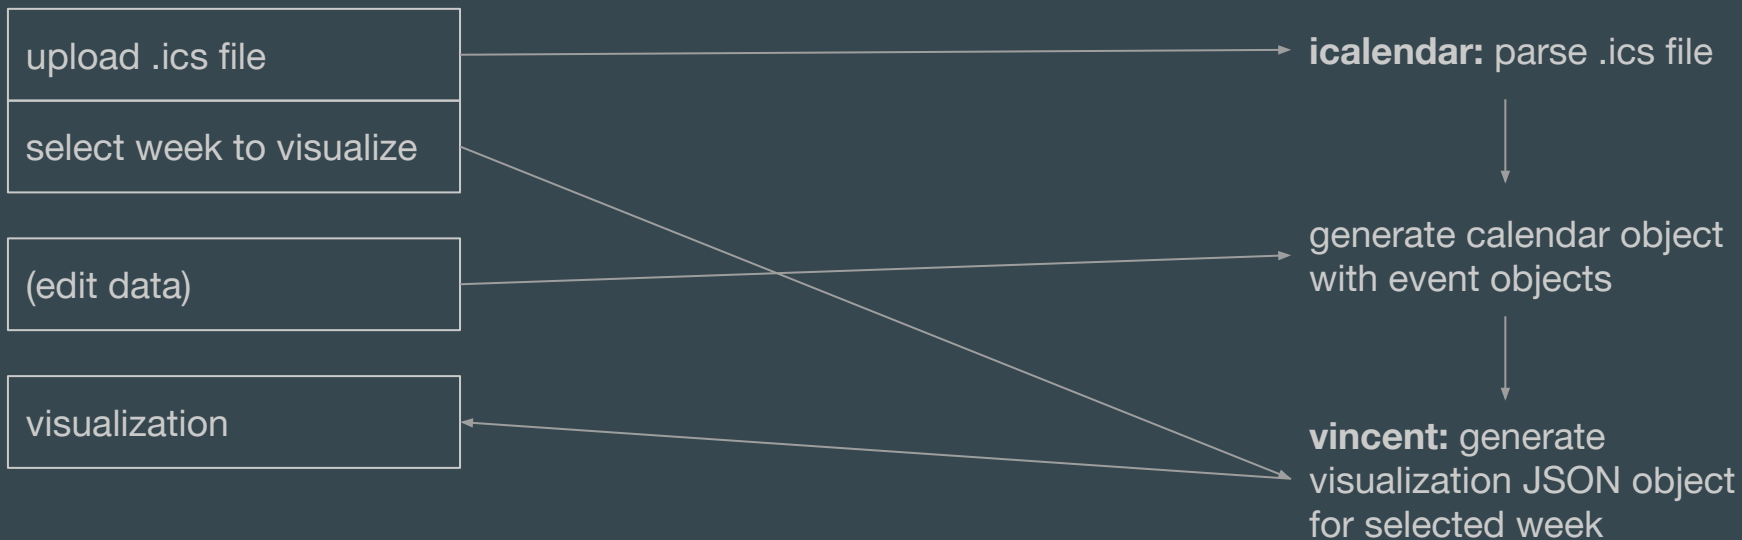

Project phases:

- > understanding icals / parsing data
- > generating visualizations
- > deploying on web app

Interaction

FRONT END

BACK END

Dependencies

> Flask

> Heroku

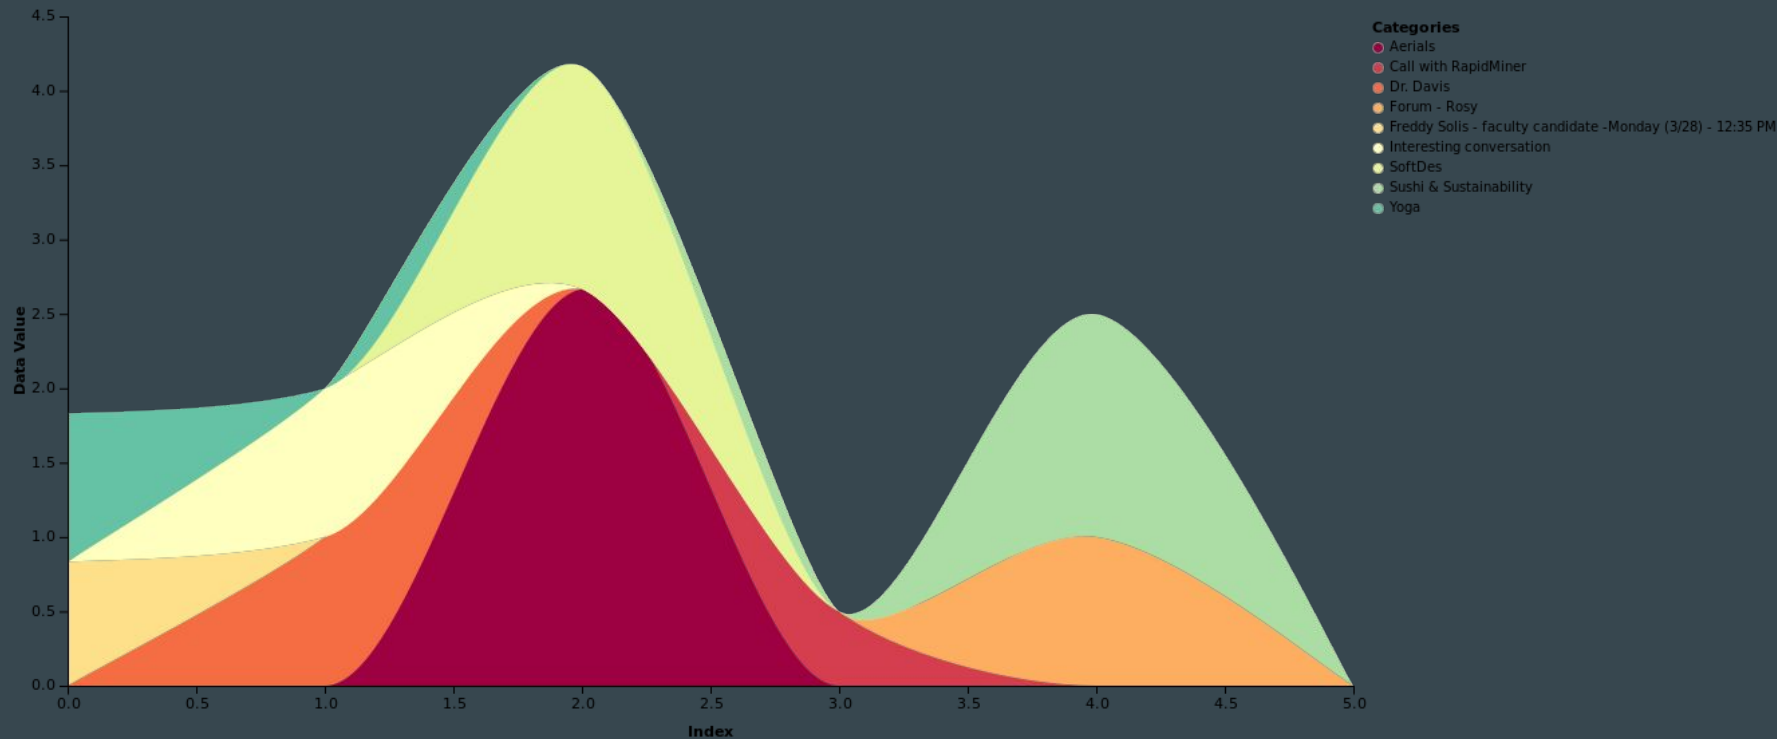

> icalendar

> vincent

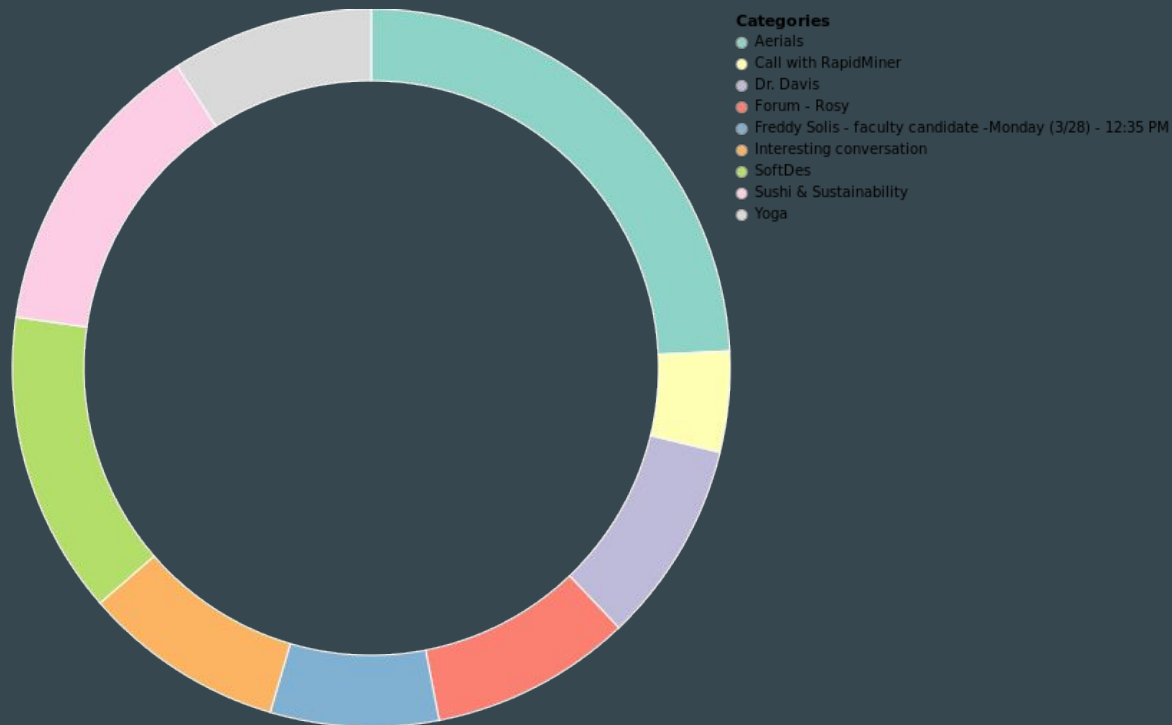

Status

- > calendar parsing implemented
- > two visualizations implemented
- > web app in progress
 - > file uploads
 - > interface development
 - > in-app visualization rendering

Poured time (stacked area)

Donut

Moving Forward

- > continue work on web app

 - > file uploading

 - > data editing interface

 - > visualization rendering

- > implement another visualization

- > data storage / generated key user login system
